

The Brighton Collaboration Would Like to Thank You

Thank You For...

Voluntary endeavour

Our strength is based on precious and extensive non-monetary effort and intangible contributions. Numerous **visitors** and **partners** of the Brighton Collaboration Network contribute their time and energy in order for vaccines to become safer around the world by joining Working Groups and Think Tanks. The members of our **Science Board** and **Foundation Board** determine and oversee the Foundation's scientific activities and set up respective strategic plans. **Voluntary consultants** offer their expertise to the Brighton Collaboration by providing valuable inputs and advice. None of our work would be possible without their voluntary endeavour, patience and time.

In-kind Contributions

We benefit from valuable and regular in-kind contributions, such as office facilities and supplies. The **University Children's Hospital Basel (UKBB)** provides our Management Team with the necessary infrastructure and **PODIO** helps us to manage our tasks and projects efficiently by waiving the license fee for their project management software.

Since 2016, the Brighton Collaboration Foundation is further ideally borne by the **Department of Health of the Canton of Basel-Stadt (Gesundheitsdepartement des Kantons Basel-Stadt)**.

Gesundheitsdepartement des Kantons Basel-Stadt

Thank You To...

Private Donors

Every donation is a precious gift. All gifts from private donors are directed to where they are needed the most. According to our privacy policy we value and respect our donors' right to privacy and therefore do not share any donor's personal information publicly. Yet we would like to thank our network members for their generous donations.

Partnering Organisations

We receive contributions and support for respective projects and our core activities from scientific funding agencies, internationally recognised scientific health and particularly vaccine stakeholder organisations, as well as charitable agencies.

Thank you to all organisations that have supported Brighton Collaboration projects in the past.

Read more about our projects on www.brightoncollaboration.org/recentnews.
